ANY HARM DONE TO THE ENVIRONMENT IS A HARM TO HUMANITY

Any harm done to the environment is harm done to humanity, because every creature has an intrinsic value, in its existence, its life, its beauty and its interdependence with other creatures. We believe that the universe is the fruit of a loving decision by the Creator, who permits man respectfully to use Creation for the good of his fellow men and for the glory of the Creator; he is not authorised to abuse it, much less to destroy it. In all religions, the environment is a fundamental good.
