A Harmonious Unity

Our world, in the heart and mind of God, is the “house of harmony and peace,” ...it is the space in which everyone is able to find their proper place and feel “at home,” because it is “good.” All of creation forms a harmonious and good unity, but above all humanity, made in the image and likeness of God, is one family, in which relationships are marked by a true fraternity not only in words: the other person is a brother or sister to love, and our relationship with God, who is love, fidelity and goodness, mirrors every human relationship and brings harmony to the whole of creation.
